Public work pinned on GitHub; private client code available on request.

Summary

Next.js/TypeScript developer shipping performant small business sites and storefronts with strong UX + SEO fundamentals.

Selected Projects

Zevlin Bike E-commerce Storefront (Client)   *zevlinbike.com* Next.js ▪ TS ▪ Tailwind | Supabase | Vercel
- Built a mobile first storefront with product browsing and templates for collections + product detail; optimized images and the critical rendering path.
- Improved crawlability and product visibility with structured data and clean metadata; laid groundwork for cart and purchase flow UX.

S1 Auto Repair Marketing + Admin   *s1autorepair.com* Next.js ▪ TS ▪ Tailwind | Supabase | Vercel
- Built a brand-forward marketing landing page with clear services, trust signals, and responsive sections; optimized media, copy, and CTAs for conversions.
- Implemented an authenticated admin dashboard to manage work orders, invoices, vehicles, clients, and messages with CRUD flows, status tracking, and search/filtering.

Portfolio + Service Bundles   *tylerweb.dev* Next.js ▪ TS ▪ Tailwind | Supabase | Vercel
- Productized a small business web offering (bundles + templates) to ship sites fast; built reusable page patterns and a consistent design system.
- Performance + SEO foundation across key pages; implemented metadata/OpenGraph, sitemap/robots, route caching/ISR, and analytics basics.

Iron Ankr Brand Marketing Site   *ironankr.com* Next.js ▪ TS ▪ Tailwind | Supabase | Vercel
- Designed and shipped a bold, fitness oriented marketing site with responsive sections, reusable cards, and motion based emphasis.
- Reduced load costs via media compression and sensible preloading; improved accessibility via semantic structure and contrast safe styling.

Suncrest Fitness Center Marketing Site   *sfc-topaz.vercel.app* Next.js ▪ TS ▪ Tailwind | Vercel
- Redesign concept for practice; not an offered client service.
- Designed a clean, community-focused marketing site highlighting classes, trainers, and membership options; mobile-first responsive sections and reusable components.
- Improved performance and SEO with optimized imagery, structured metadata/OpenGraph, and sensible preloading; added clear contact/location CTA flow.

Skills

Skills: Next.js, React, TypeScript, Tailwind, HTML/CSS/JS ▪ Supabase/Postgres (CRUD, auth) ▪ REST/JSON ▪ Git ▪ Vercel ▪ Perf/SEO/a11y (basics)

Workflow: Neovim (in Alacritty), tmux, terminal-first workflow; AI-assisted scaffolding (used responsibly) for speed.

Education

Spokane Community College 2024–2025 ▪ AS-T: Computer & Electrical Engineering (Track 2/MRP) ▪ Sky View HS (2017)

Work Experience

Suncrest Mart Cashier / Shift Lead   *Suncrest, WA | Dec 2024 – Present*

- Ran solo shifts end to end; resolved issues fast and kept service stable during peak hours with clean cash closeouts.

Amazon GEG1 Inbound Dock Associate   *Spokane, WA | Oct 2022 – Dec 2024*

- Coordinated high volume inbound flow; escalated blockers with clear ownership and troubleshot process/tool failures under time pressure.
